

Navbar options depend on whether user is logged or not.

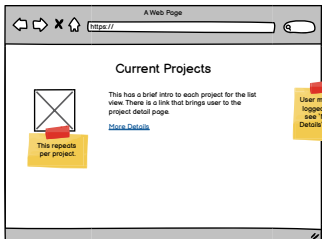

Navbar and footer are common to all pages. They are not repeated in all of the wireframes below.

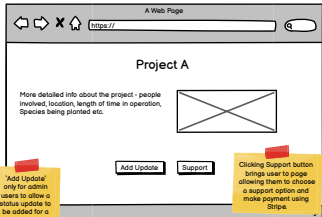

This page is populated dynamically depending on the user interaction - eg the 'Help Me Offset' and 'How is this Calculated' buttons should result in different additions to the page, without a page reload. All divs have similar format, hence not repeating each one here.

Social media login to be offered (GitHub) - no of providers depending on time

User must be logged in to see 'More Details' option

Clicking Support button brings user to page allowing them to choose a support option and make payment using Stripe
